ABOUT MYSELF

I am a dedicated Computer Science professional with a BSCS and MSCS degree. I have experience in mall management at Lyallpur Galleria, where I developed strong customer service and operational coordination skills. Currently, I work in the IT Department at Faisalabad Electric Supply Company (FESCO), supporting customer service systems, complaint management, user accounts, and technical support. I am focused on improving operational efficiency and continuously enhancing my technical and professional skills.

CONFERENCES & ACHIEVEMENTS

A HYBRID FEATURE SELECTION APPROACH FOR ROMAN URDU TEXT CLASSIFICATION

Text Classification for Roman Urdu using Hybrid Feature Selection Developed a hybrid feature selection approach to enhance the accuracy of machine learning models for Roman Urdu text classification. The method improves dimensionality reduction and performance in resource-poor languages. Future work will explore deep learning for enhanced results.
